

Today, we face some overwhelming challenges.

Our ability to sustain the environment, our communities and our economies is an issue facing us all.

Design can ask questions, offer solutions and inspire change.
Will you partner with us to provoke and inspire?

Change starts now: it's time to take responsibility.

Exhibition

You Are Invited!

Dear Friend!

The Society for Responsible Design (SRD) is presenting a Graduate Design event called **Change**.

Change 08 (formerly *SRD ChangeX*) is an annual exhibition of projects from Sydney's top universities. It explores issues of sustainability, environmental responsibility, social equity and community. The exhibition showcases compelling projects from a cross section of design fields: from built environments, products, textiles and communications. **Change 08** embraces the contemporary issues for creative professionals, young designers, business and community members. Offering the opportunity to explore Responsible Design's potential in realising tangible solutions globally.

We are inviting you to partner with us in presenting new ideas that will shape our future.

This is an important opportunity for you to gain exposure in your support of a sustainable initiative, and advancing responsible design and education.

It's your time to be responsible!

This letter outlines partnership packages. To begin with, your contribution will ensure the success of this year's exhibitions: the first 2 confirmed for Sydney, with a third planned overseas dependent on your contribution.

Yes! Your sponsorship (over \$2) is tax deductible - SRD is Registered Environmental Organisation (REO). Easy payment instructions are on the back page.

- **Change08 debut:** 23-28 September 2008, Tap Gallery, Darlinghurst, Sydney
- **Second presentation:** 7-8 November 2008 at GreenTECH (3rd Australian International Green Build & Technology Exhibition & Conference. 10,000 visitors in past 2 years.)

Exhibition attendance along with our planned promotional campaign ensure excellent exposure amongst young design professionals and like-minded community members! Your support will ensure a successful, exciting event, with obvious benefits for you!

In addition, we're hoping to go global and exhibit at an international design fair early next year.
Sponsor a project of your choice and get your brand out there!
